

Moving Dutchess Forward

Planning for our transportation future.

The Draft Plan is Live!

In case you haven't heard, the complete draft of [*Moving Dutchess Forward*](#) is available for public review and comment. This new plan will serve as our strategic guiding document for improving transportation in the county over the next 25 years.

Moving Dutchess Forward is our first digital transportation plan, designed to be explored online, and built to be flexible and interactive, with maps and visuals. It intentionally humanizes the narrative surrounding transportation – shifting our focus away from solely infrastructure and more towards the reasons we have the infrastructure in the first place: to provide safe and reliable access to people's basic needs.

The draft plan is organized around four goals:

Learn: Prepare a transportation system that can anticipate and adapt to changes in the population, economy, technology, climate, and travel behavior.

Assess: Provide safe and convenient access for all people to housing, jobs, goods and service, and recreational amenities, regardless of age, ability, race, income, or mode of transportation.

Advocate: Promote smart transportation and land use policies and practices to remove barriers to access and support economic opportunity, environmental preservation, and improved quality of life.

Invest: Make transformative investments in our regional transportation system while maintaining fiscal constraint and leveraging private investment.

What do You Think?

The draft plan is open for comment **through July 16, 2021**. Please review the Plan and share your thoughts with us! We look forward to your feedback.

Send your comments for any aspect of the draft plan via email, phone, fax, or mail:
