

MOVING DUTCHESS FORWARD

Introduction

The Dutchess County Transportation Council (DCTC) is updating its county-wide transportation plan, *Moving Dutchess Forward*.

The Plan serves as our guiding vision for improving transportation in Dutchess County over the next 25 years. It looks at all the ways we get around—by car, foot, bike, or transit—for work, school, shopping, recreation, and more. It also looks at the policies and infrastructure needed to provide safe and reliable access to basic needs.

Help Us Plan for the Future of Transportation in Dutchess!

We want the Plan to reflect the transportation priorities of the people and communities of Dutchess County. From road and bridge improvements, to walking and bicycling infrastructure and transit services, and your input will help guide our future transportation investments. What works and what doesn't? What keeps you from getting where you need to go?

STEP 1: LEARN

What trends are shaping our future?

Review trends in our population, economy, housing, freight, technology, climate, and travel behavior.

STEP 2: ASSESS

What barriers do people face and what safety and reliability issues need attention?

Assess safety, reliability, and access to jobs, housing, education, and other basic needs.

STEP 3: ADVOCATE

What policies and actions will make a difference?

Review and recommend best practices to create a safer, more reliable and resilient transportation system.

STEP 4: INVEST

How should we invest?

Estimate future funding available to maintain the transportation system, while recommending transformative projects and packages.

We'll gather stakeholder and public input during each step of the process, up and through adoption of the Plan in 2026.
